

Impacts

Attribution Gap

**Objective/
Outcome**

The capacities of regional organizations in the Pacific Islands region and its member states to adapt to climate change and mitigate its causes are strengthened

**Relevant
programme
indicator**

The advisory services focusing on climate change (the provision of experts, policy advice, training, information, networking, etc.) that have been developed by SPC and SPREP are increasingly being provided and are being requested by member states

**Component 1
Objective/
outcome**

Improved advisory and management capacity in regional organizations promotes adaptation to climate change and the reduction of GHG emissions in the region

**Component
Indicators**

- 1.1. 5 SPC & SPREP strategies and 5 publications outline advisory packages and activities (of which at least 1 explicitly references gender) relating to adapting to CC and reducing greenhouse gas emissions as an integral part of these organizations' outputs.
- 1.2. A common tool for monitoring the results of adaptation advice is being used in SPC and SPREP for prioritizing and improving the interlinking of regional and national activities
- 1.3. A climate portal set up jointly by SPREP and SPC is being used x times per month.
- 1.4. Decision-makers from SPC, SPREP & from 5 countries confirm the coherence of the German development cooperation portfolio in the Pacific and its interlinking with regional & national strategies & tools

Use of Outputs

Outputs

¹ assessments, lessons learnt from local adaptation responses and local knowledge for coping with climate change
² Including resource management policies and strategies and national and local investment
³ Including as relevant government, local, national, NGO and donor projects and programmes
⁴ national cc focal points, line ministries engaged in cc activities, media organizations, educators, private sector, NGOs/CBOs, development practitioners at regional and international levels

1 CC includes Climate change adaptation (CCA) and mitigation
 2 if not existent, to be done in collaboration with SPREP & SPC-SOPAC
 3 May include a climate proofing tool and CC project proposals and general development initiatives; ties in with SPREPs mainstreaming work & projects
 4 e.g. responsible national agency or focal points can more effectively guide development partners on implementation
 5 Climate "proofing" includes applying a climate lens, climate sensitive planning and implementation, climate proofed infrastructure

¹ Main responsibility: CCCPIR (includes GIZ, SPC, SPREP and national counterparts)
² e.g. land use planning, coastal management
³ Main responsibility: National governments, local authorities plus CCCPIR
⁴ includes guidelines for gender mainstreaming and nature conservation
⁵ Main responsibility: national governments, CCCPIR
⁶ i.e.:
⁷ Main responsibility: national governments, USP, national training institutions and CCCPIR
⁸ Main responsibility: national governments
